Performance Review

IronBridge Small Cap Fund

For the year ended June 30, 2018, the IronBridge Small Cap Fund was slightly ahead of the benchmark, returning 17.88% (net of fees) compared with the Russell 2000° Index return of 17.57% for the same period.

The stock selection within Information Technology, Consumer Discretionary, Energy and Real Estate was a positive contributor to the relative return profile. Selection in the Industrials, Health Care, Financials, Materials, Consumer Staples, Utilities and Telecommunication Services sectors detracted from the Small Cap Fund's relative performance. Sector allocation positively contributed to results, with underweights to Real Estate and Utilities having the biggest impact.

IronBridge SMID Cap Fund

For the year ended June 30, 2018, the IronBridge SMID Cap Fund beat the benchmark, returning 18.20% (net of fees) compared with the Russell $2500^{\rm TM}$ Index return of 16.24% for the same period.

Outperformance for the year was driven primarily by stock selection, with sector allocation also contributing positively to results. Stock selection within Health Care and Industrials was the largest positive contributor to the Fund's relative return. Selection in Materials, Consumer Staples, Utilities and Real Estate detracted from results. In terms of sector allocation, an overweight to Health Care and an underweight to Real Estate were the largest contributors.

IronBridge Large Cap Fund

For the year ended June 30, 2018, the IronBridge Large Cap Fund trailed the benchmark, returning 13.34% (net of fees) compared with the Russell 1000° Index return of 14.54% for the same period.

Report from RMB Capital Management, LLC (continued)

Stock selection within Consumer Staples, Energy, Health Care, Utilities, Telecommunication Services, Materials and Information Technology positively contributed to the relative return profile. Conversely, selection in Financials, Consumer Discretionary, Industrials and Real Estate detracted from results. Sector allocation had a positive effect on relative returns, primarily due to underweights in Consumer Staples and Telecommunication Services.

Portfolio Outlook

From a pricing equation perspective, we have previously identified the importance of corporate net cash receipts growing into high valuations, which is what indeed is happening so far. If corporate profits continue to accelerate, we feel stocks should keep going up, but the market is not without its risk. Even with growing net cash receipts, valuations still appear elevated, meaning the discount rate is very low. Additionally, other risks are building. A big risk to the numerator in the pricing equation is the potential escalation of trade wars, and while small caps have benefited from a perceived "safe haven" status, we cannot forget the world is more connected than ever. If there is an all-out trade war, domestic GDP growth would suffer as well. Denominator risks are also increasing as it relates to rate normalization. Will the Fed overtighten and cause a yield curve inversion/ recession? Will larger fiscal deficits associated with tax reform drive the 10-year Treasury yield significantly higher? Will Democrats take over Congress in November and potentially reverse President Trump's pro-growth policies? We expect volatility to increase as investors sort out the answers to these questions. We view increased volatility as an opportunity, allowing active investors like us to exploit it by picking up strong companies at great prices during risk-off market moves, or using risk-on upward volatility to sell names we have less conviction in to passive ETF complexes. We continue to believe normalization will increase stock dispersion and volatility, creating opportunities for active managers to add value over passive investing.

Thank you for your continued confidence in the IronBridge Funds.

Diversification does not assure a profit nor protect against loss in a declining market.

Must be preceded or accompanied by a prospectus.

Mutual fund investing involves risk. Principal loss is possible. The Funds may invest in small and medium capitalization companies which are often more volatile, less liquid and more susceptible to market pressures than securities of larger issuers. Growth stocks typically are more volatile than value stocks; however, value stocks have a lower expected growth rate in earnings and sales. The Funds may invest in American Depositary Receipts (ADRs) and Global Depositary Receipts (GDRs) that represent interests in foreign securities. Investments in foreign securities involve greater volatility and political, economic and currency risks and differences in accounting methods.

Expense Example (Unaudited)

IronBridge Funds June 30, 2018

As a shareholder of a mutual fund, you incur two types of costs: (1) transaction costs, including redemption fees, and (2) ongoing costs, including management fees and other fund expenses. Although the Funds charge no sales loads, you will be assessed fees for outgoing wire transfers, returned checks and stop payment orders at prevailing rates charged by U.S. Bancorp Fund Services, LLC, the Funds' transfer agent. If you request that a redemption be made by wire transfer, currently the Funds' transfer agent charges a \$15.00 fee.

This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Funds and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (1/1/18 - 6/30/18).

Actual Expenses

The first line of the table on the following page for each Fund provides information about actual account values and actual expenses. The Example includes management fees, registration fees, fee waivers/reimbursements and other expenses. However, the Example include portfolio does not trading commissions and related expenses and other extraordinary expenses as determined under generally accepted accounting principles. You may use the information in this line, together with the amount you invested, to estimate the

expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

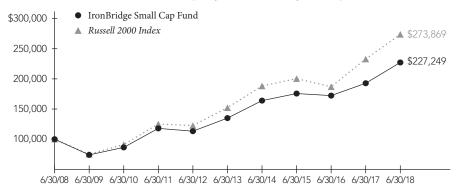

The second line of the table for each Fund provides information about hypothetical account values and hypothetical expenses based on each of the Fund's actual expense ratios and an assumed rate of return of 5% per year before expenses, which is not the actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in each of the Funds and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds. Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs could have been higher.

Notes to Financial Statements

IronBridge Funds, Inc. June 30, 2018

(1) ORGANIZATION

IronBridge Funds, Inc. (the "Company") was incorporated on February 26, 2010 as a Maryland corporation and is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end investment company issuing shares in series, each series representing a distinct portfolio with its own investment objectives and policies.

The Company consists of three series ("Funds"). RMB Capital Management, LLC ("RMB"), serves as the investment adviser to each of the Funds. Prior to June 24, 2017, IronBridge Capital Management, L.P. ("ICM") served as the investment adviser to the Funds. A summary of the Funds and their respective investment objective is included below:

Fund

Investment Objective

IronBridge Small Cap Fund Capital appreciation

IronBridge SMID Cap Fund Capital appreciation

IronBridge Large Cap Fund Capital appreciation

Each Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standard Codification ("ASC") Topic 946 "Financial Services — Investment Companies."

(2) SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Funds in the preparation of their financial statements.

(A) Investment Valuation. Equity securities for which market quotations are readily available are valued at the last reported sale price on the national securities exchange on which such securities are primarily traded. Equity securities for which there were no transactions on a given day or securities not listed on a national securities exchange are valued at the most recent sale price. Shares of

underlying mutual funds are valued at their respective NAVs. Securities that are primarily traded on foreign exchanges generally are valued at the last sale price of such securities on their respective exchange. In certain countries, market maker prices, usually the mean between the bid and ask prices, are used. In certain circumstances, such as when a significant event occurs in a foreign market so that the last sale price no longer reflects actual value, the fair value of these securities may be determined using fair valuation procedures approved by the Board of Directors (the "Board"). Any securities or other assets for which market quotations are not readily available are valued at their fair value as determined in good faith by RMB pursuant to guidelines established by the Board.

The Funds follow a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Funds' own market assumptions (unobservable inputs). These inputs are used in determining the value of each Fund's investments and are summarized in the following fair value hierarchy:

Level 1 – Quoted prices in active markets for identical securities.

Level 2 – Other significant observable inputs (including quoted prices for similar securities, foreign security indices, foreign exchange rates, and fair value estimates for foreign securities, and changes in benchmark securities indices).

Level 3 – Significant unobservable inputs (including the Funds' own assumptions in determining fair value of investments).

^{*} See Funds' Schedule of Investments for Industry classifications.

There were no transfers into or out of Level 1, Level 2, or Level 3 fair value measurements during the reporting year. The basis for recognizing and valuing transfers is as of the beginning of the year in which transfers occur.

(B) Federal Income Taxes. Each Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code necessary to qualify as a regulated investment company and to make the requisite distributions of income and capital gains to its shareholders sufficient to relieve it from all or substantially all federal income taxes. Therefore, no federal income tax provision has been provided.

The Funds have adopted financial reporting rules regarding recognition and measurement

of tax positions taken or expected to be taken on a tax return. The Funds have reviewed all open tax years and concluded that there is no effect to any of the Funds' financial positions or results of operations and no tax liability resulting from unrecognized tax benefits relating to uncertain income tax positions taken or expected to be taken on a tax return. Open tax years are those years that are open for examination by the relevant income taxing authority. As of June 30, 2018, open Federal and state income tax years include the tax years ended June 30, 2015, June 30, 2016 and June 30, 2017. The Funds have no examinations in progress. The Funds are also not aware of any tax positions for which it is more likely than not that the total amounts of unrecognized tax expense will significantly change in twelve months.

(C) Distributions to Shareholders. Dividends from net investment income, if any exist, are generally declared and paid at least annually for the Funds. Distributions of net realized gains, if any, are declared and paid at least annually for the Funds.

All short-term capital gains are included in ordinary income for tax purposes. Distributions to shareholders are recorded on the ex-dividend date.

The tax character of distributions paid during the fiscal years ended June 30, 2018 and June 30, 2017 were as follows:

	Year Ended June 30, 2018			Year Ended June 30, 2017				
		Short- Term	Long- Term			Short- Term	Long- Term	
	Ordinary	Capital	Capital	Total	Ordinary	Capital	Capital	Total
	Income	Gains	Gains	Distributions	Income	Gains	Gains	Distributions
IronBridge Small Cap	\$1,449,927	\$3,344,103	\$44,024,773	\$48,818,803	\$932,250	\$ —	\$15,364,145	\$16,296,395
IronBridge SMID Cap	1,499,792	3,023,642	31,938,075	36,461,509	867,087	1,130,210	49,198,414	51,195,711
IronBridge Large Cap	313,855	56,987	1,737,155	2,107,997	222,042	68,237	497,411	787,690

The Funds designated as long-term capital gain dividend, pursuant to Internal Revenue Code Section 852(b)(3), the amount necessary to reduce the earnings and profits of the Fund related to net capital gain to zero for the tax year ended June 30, 2018.

Certain Funds may also utilize earnings and profits distributed to shareholders on redemptions of shares as part of the dividends paid deduction.

As of June 30, 2018, the Funds' most recent fiscal year-end, the components of accumulated earnings/losses on a tax basis were as follows:

	IronBridge Small Cap Fund	IronBridge SMID Cap Fund	IronBridge Large Cap Fund
Cost of investments	\$ 95,954,766	\$129,172,355	\$26,743,570
Gross unrealized appreciation Gross unrealized depreciation	56,296,818 (4,324,965)	68,886,918 (4,716,138)	6,739,679 (638,172)
Net unrealized appreciation/depreciation	51,971,853	64,170,780	6,101,507
Undistributed ordinary income Undistributed long-term capital gain	<u> </u>	4,808,354 12,572,778	399,262 4,594,152
Total distributable earnings	24,989,092	17,381,132	4,993,414
Other accumulated loss	(18,869,459)	_	
Total accumulated earnings/(losses)	\$ 58,091,486	\$ 81,551,912	\$11,094,921

The difference between book-basis and tax-basis unrealized appreciation is attributable primarily to the tax deferral of losses on wash sales, and tax basis adjustments for securities contributed in-kind.

Net investment income and realized gains and losses for federal income tax purposes may differ from that reported on the financial statements because of permanent book-to-tax differences. GAAP requires that permanent differences in net investment income and realized gains and losses due to differences between financial reporting and tax reporting be reclassified between various components of net assets. These reclassifications have no effect on net assets or net asset

value per share. For the year ended June 30, 2018, the following table shows the reclassifications made:

	Paid	Undistributed net investment	Accumulated net realized
	in capital	income (loss)	gain (loss)
IronBridge Small Cap	\$47,494,430	\$(104,284)	\$(47,390,146)
IronBridge SMID Cap	16,858,134	18,637	(16,876,771)
IronBridge Large Cap	645,934	_	(645,934)

The permanent differences primarily relate to foreign currency, Real Estate Investment Trust (REIT) adjustments with differing book and tax methods, utilization of earnings and profits distributed to shareholders on redemption of shares, realized gains on redemptions in-kind not recognized for tax purposes, and tax basis adjustments for securities contributed in-kind.

In order to meet certain excise tax distribution requirements, the Funds are required to measure and distribute annually net capital gains realized during a twelve month period ending October 31 and net investment income earned during a twelve month period ending December 31. In connection with this, the Funds are permitted for tax purposes to defer into their next fiscal year qualified late year losses. Qualified late year ordinary losses are generally losses incurred between January 1 and the end of their fiscal year, June 30, 2018. During the year ended June 30, 2018 the Funds had no capital loss carryforwards and qualified late-year ordinary losses. At June 30, 2018, the IronBridge Small Cap Fund, SMID Cap Fund, and Large Cap Fund had post-October capital losses of \$18,869,459, \$0, and \$0, respectively.

(D) Recent Accounting Pronouncement. In October 2016, the U.S. Securities and Exchange Commission adopted new rules and amended existing rules (together, "final rules") intended to modernize the reporting and disclosure of information by registered

investment companies. In part, the final rules amend Regulation S-X and require standardized, enhanced disclosure about derivatives in investment company financial statements, as well as other amendments. These updates have been incorporated in the Funds' current year financial statements and have no impact on each of the Funds' net assets or results of operations.

(E) Indemnifications. Under the Funds' organizational documents, officers and independent directors of the Company are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

(F) Other. Investment transactions are accounted for on a trade date basis. The Funds determine the gain or loss realized from investment transactions by comparing the original cost of the specifically identified security lot sold with the net sale proceeds. Dividend income, less foreign taxes withheld, is recognized on the ex-dividend date, except that certain dividends from foreign securities are recorded as soon as the information becomes available to the Funds. Interest income is recognized on an accrual basis. All discounts/premiums are accreted/amortized using the effective interest method and are included in interest income.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of

increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

(3) INVESTMENT ADVISER AND RELATED PARTIES

The Funds have entered into an investment advisory agreement with RMB on behalf of each Fund. Fees are calculated daily and payable monthly, at annual rates set forth in the following table (expressed as a percentage of each Fund's average daily net assets). Pursuant to expense cap agreements, RMB agreed to waive its respective management fees and/or reimburse each Fund's operating expenses (exclusive of brokerage, interest, taxes and extraordinary expenses) to ensure that each Fund's operating expenses do not exceed the expense limitation listed below. Expenses waived are netted against payable to adviser on the Statement of Assets and Liabilities. On a monthly basis, these accounts are settled by each Fund making payment to RMB or RMB reimbursing the Fund if the reimbursement amount exceeds the advisory fee. If the amount of fees waived exceeds the advisory fee earned, this is shown on the Statement of Assets and Liabilities as due from adviser. The expense cap agreements will continue in effect until November 1, 2018, with successive renewal terms of one year unless terminated by RMB or the Funds' Board of Directors prior to any such renewal.

IronBridge Funds	Annual Advisory Fees	Expense Limitation
IronBridge Small Cap	1.00%	1.10%
IronBridge SMID Cap	0.85%	0.95%
IronBridge Large Cap	0.65%	0.80%

Any waivers or reimbursements are subject to later adjustment to allow RMB to recoup amounts waived or reimbursed to the extent actual fees and expenses for a fiscal period are less than each Fund's expense limitation cap, provided, however, that RMB shall only be entitled to recoup such amounts for a period of three years from the date such amount was waived or reimbursed.

The following table shows the waived or reimbursed expenses subject to potential recovery expiring on June 30:

Year Incurred		IronBridge Small Cap					
2017	2020		2,607		2,065	-	1,759
2018	2021	_1	50,438	1	14,904	1	00,680
		\$1	53,045	\$1	16,969	\$1	02,439

(4) INVESTMENT TRANSACTIONS

The aggregate purchases and sales of securities, excluding short-term investments, for the Funds for the year ended June 30, 2018 are summarized below:

	Purchases	Sales
IronBridge Small Cap	\$43,962,888	\$213,346,306
IronBridge SMID Cap	34,401,936	185,822,641
IronBridge Large Cap	19,043,365	25,743,632

Included in proceeds of IronBridge Small Cap Fund's sales is \$68,988,343 representing the value of securities transferred in payment of redemptions in kind, resulting in realized gains of \$23,194,681.

(5) DIRECTORS FEES

The independent directors are paid a retainer of \$25,000 per year plus \$3,000 for each regular in person meeting and \$1,000 for each telephonic meeting attended for their service on the Board. Independent directors are also compensated for any special meeting that they may be required to attend. Independent directors are reimbursed for any travel expenses incurred in all meetings.

(6) SUBSEQUENT EVENTS

The Funds have evaluated subsequent events through the issuance of the Funds' financial statements and have determined there is no impact to the Funds' financial statements or additional disclosures.

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of IronBridge Funds, Inc.

Opinion on the Financial Statements

have audited the accompanying statements of assets and liabilities of the IronBridge Funds, Inc. (comprising the IronBridge Small Cap Fund, IronBridge SMID Cap Fund, and IronBridge Large Cap Fund (collectively referred to as the "Funds")), including the schedules of investments, as of June 30, 2018, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds comprising the IronBridge Funds at June 30, 2018, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended and their financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on each of the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the statements. Our procedures included confirmation of securities owned as of June 30, 2018, by correspondence with the custodian and brokers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst + Young LLP

We have served as the auditor of the IronBridge Funds since 1996.

Protecting the privacy of Fund shareholders is important to us. The following is a description of the practices and policies through which the Funds maintain the confidentiality and protect the security of your non-public personal information.

WHAT INFORMATION WE COLLECT

In the course of providing services to you, we may collect the following types of "non-public personal information" about you:

- Information we receive from you on applications or other forms, such as your name, address and social security number, the types and amounts of investments and bank account information, and
- Information about your transactions with us, our affiliates and others, as well as other account data.

"Non-public personal information" is nonpublic information about you that we obtain in connection with providing a financial product or service to you, such as the information described in the above examples.

"Affiliates" include the Funds' investment adviser and companies that are related to IronBridge Funds, Inc. through common control or ownership. The Funds' investment adviser, RMB Capital Management, LLC, is an Affiliate of the Funds.

WHAT INFORMATION WE DISCLOSE

We do not disclose non-public personal information about you or any of our former shareholders to anyone, except as permitted by law. We are permitted by law to share any of the information we collect, as described above, with our affiliates. In addition, in the normal course of serving shareholders, information we collect may be shared with companies that perform various services such as transfer agents, custodians and broker-dealers. These companies will use this information only for the services for which we hired them and as allowed by applicable law.

CONFIDENTIALITY AND SECURITY PROCEDURES

To protect your personal information, we permit access only by authorized personnel. We maintain physical, electronic and procedural safeguards to protect the confidentiality, integrity and security of your non-public personal information.

We will continue to adhere to the privacy policies and practices in this notice even after your account is closed or becomes inactive.

ADDITIONAL RIGHTS

You may have other privacy protections under applicable state laws. To the extent those state laws apply, we will comply with them with respect to your non-public personal information.
